Our Mission

Our mission is to provide a comprehensive and quality program that enables students to express ideas and emotions through visual, performing and applied arts. Our goals include helping students develop and expand their abilities to create, perform, and reflect on their artmaking, to develop their understanding of cultural and historical connections to the arts, and to apply and enjoy the arts throughout their lives. We also believe in the importance of having students participate in a culture that fosters exploration, experimentation, and artistic communication, to publicly exhibit and perform one's art, and to work with teachers who are life-long learners as artists and arts educators.
